Ai Watermarking

Moth Burton

October 2026

Abstract

this will be my abstract

1 Introduction

2 Literature Review

A review of historical watermarking methods used digitally and physically.

Ai Watermarking (focusing on red-green and its derivatives, brief review of non-text watermarks).

3 Challenges

4 Solution

5 Evaluation

Testing attacks on My New Proposition for statistics

6 Analysis

Compared to older models (Kirchenbauer et al. 2024) how do my modifications hold up?

7 Conclusion
